

The Ahtna Heritage Foundation, through project funding from the US Department of Education, is planning to hold a **Parenting Conference** in the Copper River area in the near future.

If you have a passion for helping children and creating healthy families, we urge you to join us in planning for the conference.

We are hoping that this will be an opportunity to help parents recognize the important role they play in their children's future, improve their parenting skills, provide them with community resources, and create a network of support within the community.

We hope to involve people from throughout the valley, both individuals and organizations. Our first planning session will be held on Thursday, October 13th, starting at noon in the Ahtna Conference Room. Lunch will be provided. **If you are interested in participating, or would like more information, please contact Amanda Maxim at the Ahtna Heritage Foundation office, 822-5778.**
